

Workshops / Consultations Schedule of Fees

NELLE FRANCES

- Author - *Ben and His Helmet* series and *Sustainable Social Skills*
- Special Needs Educator
- Sensory Detective® Training Workshops
- Sensory Detective™ classes
- Parent of an ASC Child
- Facilitator of Social Network Group for AS Adults (18-35)

AspergerChild.com and the *Ben and His Helmet* books were created by Nelle Frances, a Special Needs Educator with over 16 years experience working with children in Primary and High Schools, and the parent of a child with Asperger's Syndrome.

Nelle believes that all behaviour is a form of communication and once this is recognised parents, carers and teachers are better able to accommodate the Asperger child's needs.

Nelle's experience as Special Needs Educator with working with children on the Autism Spectrum, from Elementary School through to University age, has given her an in-depth knowledge and understanding of the intricate nature of Asperger's Syndrome and Autism. Applying this knowledge she has created the popular *Ben and His Helmet* books for children with an Autism Spectrum Condition.

Nelle understands how essential it is to have access to sound advice and positive anecdotal evidence, especially in the early days after diagnosis, when you're struggling to make the "clinical" diagnosis fit the actual picture of your child.

Nelle's aim is to provide you with a comprehensive "description" of Asperger's Syndrome within the pages of Aspergerchild.com, to help "*put the pieces together*" for you and your family.

Nelle's Speaking Topics

- Nelle's personal journey
- In depth description of AS character traits
- Anecdotal examples of characteristics of Asperger's
- Strategies for dealing with challenging behaviour
- Emotional regulation difficulties in Asperger's Syndrome
- Changing perspectives and processing differences of AS
- Accommodations for AS Students
- Using the *Ben and His Helmet* books within the curriculum
- Establishing scaffolding for communication skill-building
- Success Oriented Learning with positive reinforcement

Sensory Detective® Workshop

The full day **“Decoding Autism/Asperger’s behaviours through sensory awareness”** training includes Nelle’s **Sensory Detective®** workshop. This provides a detailed description of individuals with Autism/Asperger’s Syndrome, including profiles on the neurology, biology, cognitive processing, perception differences and learning styles of those with the condition.

This training gives Teachers, Professionals and Families a vivid insight into the intricacies of Autism and provides participants a **myriad of strategies to successfully engage** individuals on the Spectrum.

Participants will learn **specific techniques for dealing with challenging behaviours** and how to decrease stress in individuals with Autism.

The **Sensory Detective Workshop®** is a high-impact, interactive simulation that allows you to look at Autism/Asperger’s from the inside out! With this knowledge, you’ll find adopting accommodations strategies becomes second nature!

Workshop outcomes include being able to:

- ✓ Better understand Autism/Asperger’s
- ✓ Know the characteristics of AS
- ✓ Understand physiology of meltdowns
- ✓ Recognise sensory agitation
- ✓ See connection between sensory issues + behaviour
- ✓ Establish accommodations/differentiations for student

[Professional Development Contribution \(6 hours\)](#)

Puberty, Post-School Transition & Relationships® Workshop

Nelle’s new workshop provides a detailed description of how **Puberty** presents in individuals with Autism, including internal and external factors that can trigger sensory responses.

Participants are provided a *practical model* for successful **Post-school Transition**, using a step-by-step template guide. You’ll Case-Manage a scenario and collaborate outcomes in small groups.

You’ll discuss research about **Sexuality** and **Gender Identity** and identify the skills necessary for Autistic individuals to establish successful and ongoing **Relationships**.

Workshop outcomes:

- knowledge of diversity of Autism traits in teens, adolescents and adults
- understanding of puberty and sensory issues
- practical model of post-school transition
- hands-on scenario "case management" collaboration
- discuss latest research on sexuality, gender identity and relationships AS

For teachers, health professionals, community support workers & families of Autistic individuals aged 12+
